

IN THE CLAIMS:

Claim 1 (Currently Amended). A composition comprising: a fragrance material; said fragrance material encapsulated by a polymer to provide a polymer encapsulated fragrance; the polymer encapsulated fragrance is further coated by a mixture of polyamines polyamine product, said polyamine product is a reaction product of 1H-Imidazole and an oxirane material.

Claims 2 and 4 (Canceled).

Claim 5 (Original). The composition of claim 1 wherein the polyamine product is a reaction product of melamine and an oxirane material.

Claim 6 (Original). The composition of claim 1 wherein the polyamine product is a reaction product of alkanedioic acids, polyamines and an oxirane.

Claim 7 (Original). The composition of claim 1 wherein the polyamine product is a polyamino amine or polyaminoamide-oxirane reaction product.

Claim 8 (Currently Amended). The composition of one of claims 3, 4, 1, 5, 6, or 7 wherein the oxirane material is selected from the group consisting selected of (chloromethyl) oxirane, (bromomethyl) oxirane and mixtures thereof.

Claim 9 (Original). The composition of claim 1 wherein the fragrance is a liquid thereby providing a liquid core to the polymer encapsulated fragrance.

Claim 10 (Original). The fragrance of claim 1, wherein the fragrance material is not water soluble.

Claim 11 (Original). The composition of claim 1 wherein the fragrance material is from about 10 to about 50 weight percent of the composition.

Claim 12 (Currently Amended). The composition of claim 1 which is incorporation incorporated into a product selected from the group consisting of a personal care, fabric care and cleaning products.

Claim 13 (Original) The composition of claim 13 12 wherein the personal care product is selected from the group consisting of hair shampoos, hair rinses, bar soaps, and body washes.

Claims 14 and 15 (Canceled).

Claim 16 (Currently Amended). A composition comprising: a fragrance material; said fragrance material encapsulated by a polymer to provide a polymer encapsulated fragrance; the polymer encapsulated fragrance is further coated by a polyamine product, said polyamine product is ~~The composition of claim 1 wherein the polymer coating comprises~~ a reaction product of polyamines and (chloromethyl) oxirane or (bromomethyl) oxirane and an additional cationic polymers.

Claims 17 and 18 (Canceled).

Claim 19 (Previously presented). A wash-off product comprising the composition of claim 1 and a silicone material and having a calcium chloride level of from about 0.05 to about 1 weight percent.

Claim 20 (Original). The wash-off product of claim 19 wherein the wash-off product is a fabric rinse conditioner.

Claim 21 (Original). The wash-off product of claim 19 having a surfactant level of from about 5 to about 30 weight percent.

Claim 22 (Canceled).

Claim 23 (Previously presented) The wash-off product of claim 19 wherein the silicone level is from about 0.5 to 8 weight percent of product.

Claim 24 (Original) The wash-off product of claim 23 wherein the wash-off product is a fabric rinse conditioner.

Claim 25 (Currently Amended) The wash-off product of claim 24 ~~wherein the~~ further comprising a softening agent is provided at a level of from about 10 to about 20 weight percent.
